## ***INTRODUCTORY SECTION***

March 17, 2023

To the Honorable Mayor, Members of the City Council and Citizens of the City of Taylor:

Texas state law requires that all general-purpose local governments publish a complete set of financial statements within six months of the close of each fiscal year, and such statements be presented in conformity with the generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by an independent firm of licensed certified public accountants. Pursuant to that requirement and the requirement of Section 10.3 of the City Charter, we hereby issue the Annual Comprehensive Financial Report (ACFR) of the City of Taylor for the fiscal year ended September 30, 2022.

This report is published to provide the City Council, city staff, citizens of Taylor, representatives of financial institutions, our bondholders and other interested parties with detailed information concerning the financial condition and activities of the City. Responsibility for the accuracy of the data and the fairness of its presentation rests solely with the City of Taylor. To the best of our knowledge, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the City. Because the cost of internal controls should not outweigh their benefits, the City of Taylor's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement.

The City of Taylor's financial statements have been audited by the certified public accountants of BrooksWatson & Company, PLLC. The goal of the independent audit is to provide reasonable assurance that the financial statements of the City for the fiscal year ended September 30, 2022, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and estimates made by management; and evaluating the overall financial statement presentation. The independent auditor's report is presented as the first component of the financial section of this ACFR.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis to accompany the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

## **Profile of the Government**

The City of Taylor was incorporated in 1876 and is in eastern Williamson County, which is part of the central region of the State of Texas. It is located approximately 29 miles northeast of Austin and 7 miles east of State Highway 130 and 17 miles east of Interstate Highway 35. State Highway 95 and U.S. Highway 79 intersect in downtown Taylor. The city currently occupies a land area of 22.61 square miles and services an estimated population of 18,000 residents. The City of Taylor is empowered to levy a property tax on both real and personal properties located within its boundaries.

The City of Taylor operated under a Commission-Manager form of government from 1926 to 2001. In an election held on May 5, 2001, a charter amendment was approved that changed the city governance to a Council-Manager form of government. Policy-making and legislative authority are vested in the City Council consisting of the Mayor and four Council members. The City Council is primarily responsible for setting policy, passing ordinances, adopting the annual budget, appointing committee members, and appointing the City Manager, City Attorney and Municipal Court Judge. The City Manager is responsible for carrying out the policies and ordinances of the City Council, for overseeing the day-to-day operations of the government, and appointing the heads of the various departments. The Council is elected on a non-partisan basis. City Council members serve three-year staggered terms. The three-year election cycle consists of two members being elected in consecutive years and a single member being elected in the third year of the cycle. Four of the City Council members are elected by district with the remaining council member being elected at-large. After each election, the five members of the City Council select one of their members to serve as Mayor until the next election.

The City of Taylor provides a full range of services, including police and fire protection; the construction and maintenance of streets and other infrastructure; recreational activities and cultural events; and development services. Solid waste collection and water treatment are outsourced to Waste Connection of Texas and Brazos River Authority (BRA), respectively. Wastewater collection and treatment is provided by the City through city-owned facilities. In addition, the City of Taylor is also financially accountable for a legally separate economic development corporation, which is reported separately with the City of Taylor's financial statements. Additional information on this legally separate entity can be found in the Notes to the Financial Statements.

## **Local Economy**

The local economy is expanding as evidenced by increasing sales tax collections and new construction activity. This expansion has been driven in part by the City's location in Central Texas. Affordable housing, business incentives, and the City's proximity to Austin are major factors that have contributed to the City's economic growth.

For many years, the City's economy has been largely based on agriculture and small commercial businesses. These are still important aspects to the city and surrounding area today, however, the City of Taylor and the Taylor Economic Development Corporation actively recruit companies that add to the diversity of the City's local economy while providing residents with good employment opportunities.

Anticipated growth is expected for the east Williamson County region, especially along Chandler Road and State Highway 79. Continued improvements to both corridors will improve the overall connectivity and mobility to and within Taylor and will bring growth and new development to the area.

In Q4 2021, Samsung Semiconductor announced that they would build a 6,000,000 square foot, \$17 billion next generation semiconductor manufacturing facility in Taylor. Construction of this facility began in early 2022 and it is anticipated that the first of two planned fabrication facilities will begin manufacturing by the end of 2023. This facility will provide thousands of construction jobs as well as 1,800 permanent jobs. The company owns more than 1,200 acres of property at the site and has requested property tax relief for an additional eight fabrication facilities. There are no plans in place currently for the construction of these additional facilities. It is also anticipated that ancillary suppliers for Samsung will build facilities in the vicinity of the new plant.

The COVID-19 pandemic brought unique challenges to the local economy in 2020. COVID-19 caused many businesses to operate at reduced levels and resulted in the permanent closure of some of these businesses. Unemployment in Williamson County was impacted by the pandemic in 2020 and resulted in an unemployment rate of 5.9% as of September 2020. The local economy has recovered from the pandemic with the county unemployment rate in September 2022 at 2.8%. Net migration and job growth both remain positive as Williamson County continues to benefit from the growing popularity of the Greater Austin region. Williamson County remains among the fastest growing counties in Texas.

## **Long-Term Financial Planning**

The City of Taylor utilizes long-term revenue and expenditure forecasts and a Capital Improvements Schedule to plan for projects and initiatives that promote the City's strategic pillars. These planning tools are utilized to focus on improvements in the following areas: Neighborhoods/Diversity & Population Size, Public Safety, Infrastructure/Transportation/City Facilities, Economic Vitality/Financial Health, Community Engagement, Customer Service, Arts, and Parks, Trails & Open Spaces.

The City's fund balance/operating position continues to be an important factor in policy decisions. The City's Fund Balance Policy requires a minimum unassigned fund balance in an amount equal to 25% of annual general fund operating expenditures. These resources allow the City to avoid disruptions in services during economic downturns and to ensure that there will

be adequate liquid resources to serve as a financial cushion against the potential shock of unanticipated events.

The information presented in the financial statements is perhaps best understood when it is considered from a broader perspective of the specific environment within which the City of Taylor operates. City Council adopted a strategic Plan in 2020 to guide city staff in developing programs and strategies for the good of the community. Future management of growth issues and budget decisions will be guided by the goals and strategies contained in the Strategic Plan. The following goals are used in the development and management of the City's operational focus:

- ❖ **Financial** – To be good stewards of the City's resources.
- ❖ **Customer** – Our residents and businesses are proud to call Taylor home.
- ❖ **Internal Process** – Our clearly defined processes and procedures make it easy to do business with the city.
- ❖ **Employee** – Our knowledgeable, engaged employees deliver an exceptional customer experience by doing a job they love.
- ❖ **Culture** – Our friendly, welcoming environment attracts residents, businesses, and visitors.

The City Council and City staff continue to work to ensure completion of ongoing projects that will provide infrastructure improvements to the City's roadways, downtown area, drainage systems, water/wastewater systems, municipal airport, and parks.

## **Major Initiatives**

During the 2019 fiscal year, the City issued a Combination Tax & Revenue Certificate of Obligations, Series 2019 to fund multiple street, utilities, and drainage projects. Proceeds were also allocated for improvements to the Animal Shelter, and for the acquisition of land and design of a new justice center. The City has completed all of these projects as of the end of the 2022 fiscal year with the exception of acquiring all parcels of land for the proposed justice center.

In 2018 the City of Taylor was approved and received a Non-Urban Outdoor Grant of \$500,000 on a 50/50 match basis. The funds were earmarked for the Taylor Regional Park and Sports Complex Phase II and Doak Street Park enhancement projects, and this work was completed during FY2022. Proposed improvements for TRPSC included:

- ❖ Installation of lighted soccer field
- ❖ Walking trails bordered with native plants and educational signage
- ❖ A fishing pier
- ❖ Shaded picnic structures
- ❖ Batting cages
- ❖ Renovation of an existing football field into a multi-purpose sports field

The Doak Street Park improvements will include building a new playground.

Other major initiatives started during 2019 was an update to the Comprehensive Plan for Land Use, a Master Drainage Plan, a Master Park Improvement Plan, a complete street condition assessment, and a Public Utilities Master Plan. Although these plans were put in motion in 2019, most of the funding for these projects was included in the fiscal year 2020 and 2021 budgets. These projects are either completed or nearing completion.

The City of Taylor issued \$22.91 million in debt in March 2022. This debt will be used to fund improvement projects in the City's water and wastewater infrastructure, street system, drainage system, animal shelter, and parks system. It will also provide funding for equipment to enhance the City's street maintenance program, as well as funding for public safety vehicles.

The City of Taylor issued \$5.325 million in a Limited Tax Note in July 2022 to fund improvements to the City's parks, with the primary focus on improvements to the swimming pool in Murphy Park. This work is still ongoing.

## **Other Information**

**Fund Accounting:** The City's accounting system is organized and operated on a "fund basis." Each fund is a distinct, self-balancing entity. A description of the various major funds and fund types is contained in the Notes of the financial statements. A description of each individual non-major fund is contained at the beginning of its related combined financial statement.

**Basis of Accounting:** The City's accounting records for all governmental funds are maintained on the modified accrual basis of accounting. This method recognizes revenue when it is measurable and available and expenditures when goods or services are received. All proprietary funds are accounted for using the accrual basis of accounting where revenue is recognized when it is earned, and expenses are recognized when they incur.

**Budgetary Control:** The annual budget serves as the foundation for the City of Taylor's financial planning and control. The operating budget includes anticipated revenues and expenditures for the General Fund, Special Revenue Funds, the Debt Service Funds, and Proprietary Funds. The budget is a planning device that defines the type, quality, and quantity of City goods and services that will be provided to our citizens. The budget is also a control device that serves as a system of "checks and balances" between levels of City government. The budgetary system ensures that individual departments contain their expenditures within limitations set by the City management, and that City management contains expenditures for the entire City within limitations set by the City Council.

All units and departments of the City of Taylor are required to submit requests for appropriations to the City Manager. The City Manager and Finance Department staff use these requests as the starting point for developing a proposed budget. The City Manager then presents a proposed budget to the City Council for review and budget workshops are

scheduled. The City Council is required to hold a public hearing on the proposed budget and then adopt the final budget no later than September 15<sup>th</sup>.

The budget is prepared by fund, function (e.g., public safety), and department (e.g., police). The City Manager may authorize transfers of appropriations within a department and between departments within a fund, except for the General Fund. Increases of appropriations to a fund, however, requires approval of an ordinance by the City Council that formally amends the adopted budget.

Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an annual budget has been adopted. For the General Fund, this comparison is presented as part of the basic financial statement for the governmental funds. For other governmental funds with annual budgets, this comparison is presented in the governmental fund subsection of the report.

**Internal Control:** City Management is responsible for establishing and maintaining a system of internal controls. This system is designed to provide a reasonable assurance that: (1) City assets are protected from loss, theft, or misuse; and (2) City financial records and data are accurate and reliable. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived from it, and that the evaluation of cost and benefits requires estimates and judgments by management.

## **Acknowledgements**

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Taylor for its Annual Comprehensive Financial Report for the fiscal year ended September 30, 2021. This was the fourteenth consecutive year that the City of Taylor has received this prestigious award. To be awarded a Certificate of Achievement, a local government must publish an Annual Comprehensive Financial Report that is easy to read and well organized, as well as meeting both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. We believe that our current Annual Comprehensive Financial Report continues to meet the requirements of the Certificate of Achievement Program and we will submit it to the GFOA for certification.

The presentation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of the City's Finance Department, who have completed and recorded nearly 100,000 financial transactions that are reflected in the financial statements contained in this report. I am truly honored to lead and work with such a group of finance professionals. I would also like to thank the Mayor and the City Council for their continued support in maintaining the highest standards of professionalism in the management of the City of Taylor's financial operations.

Furthermore, I would like to acknowledge the work of the independent auditors from BrooksWatson & Company, PLLC, who have diligently examined the City's financial activities.

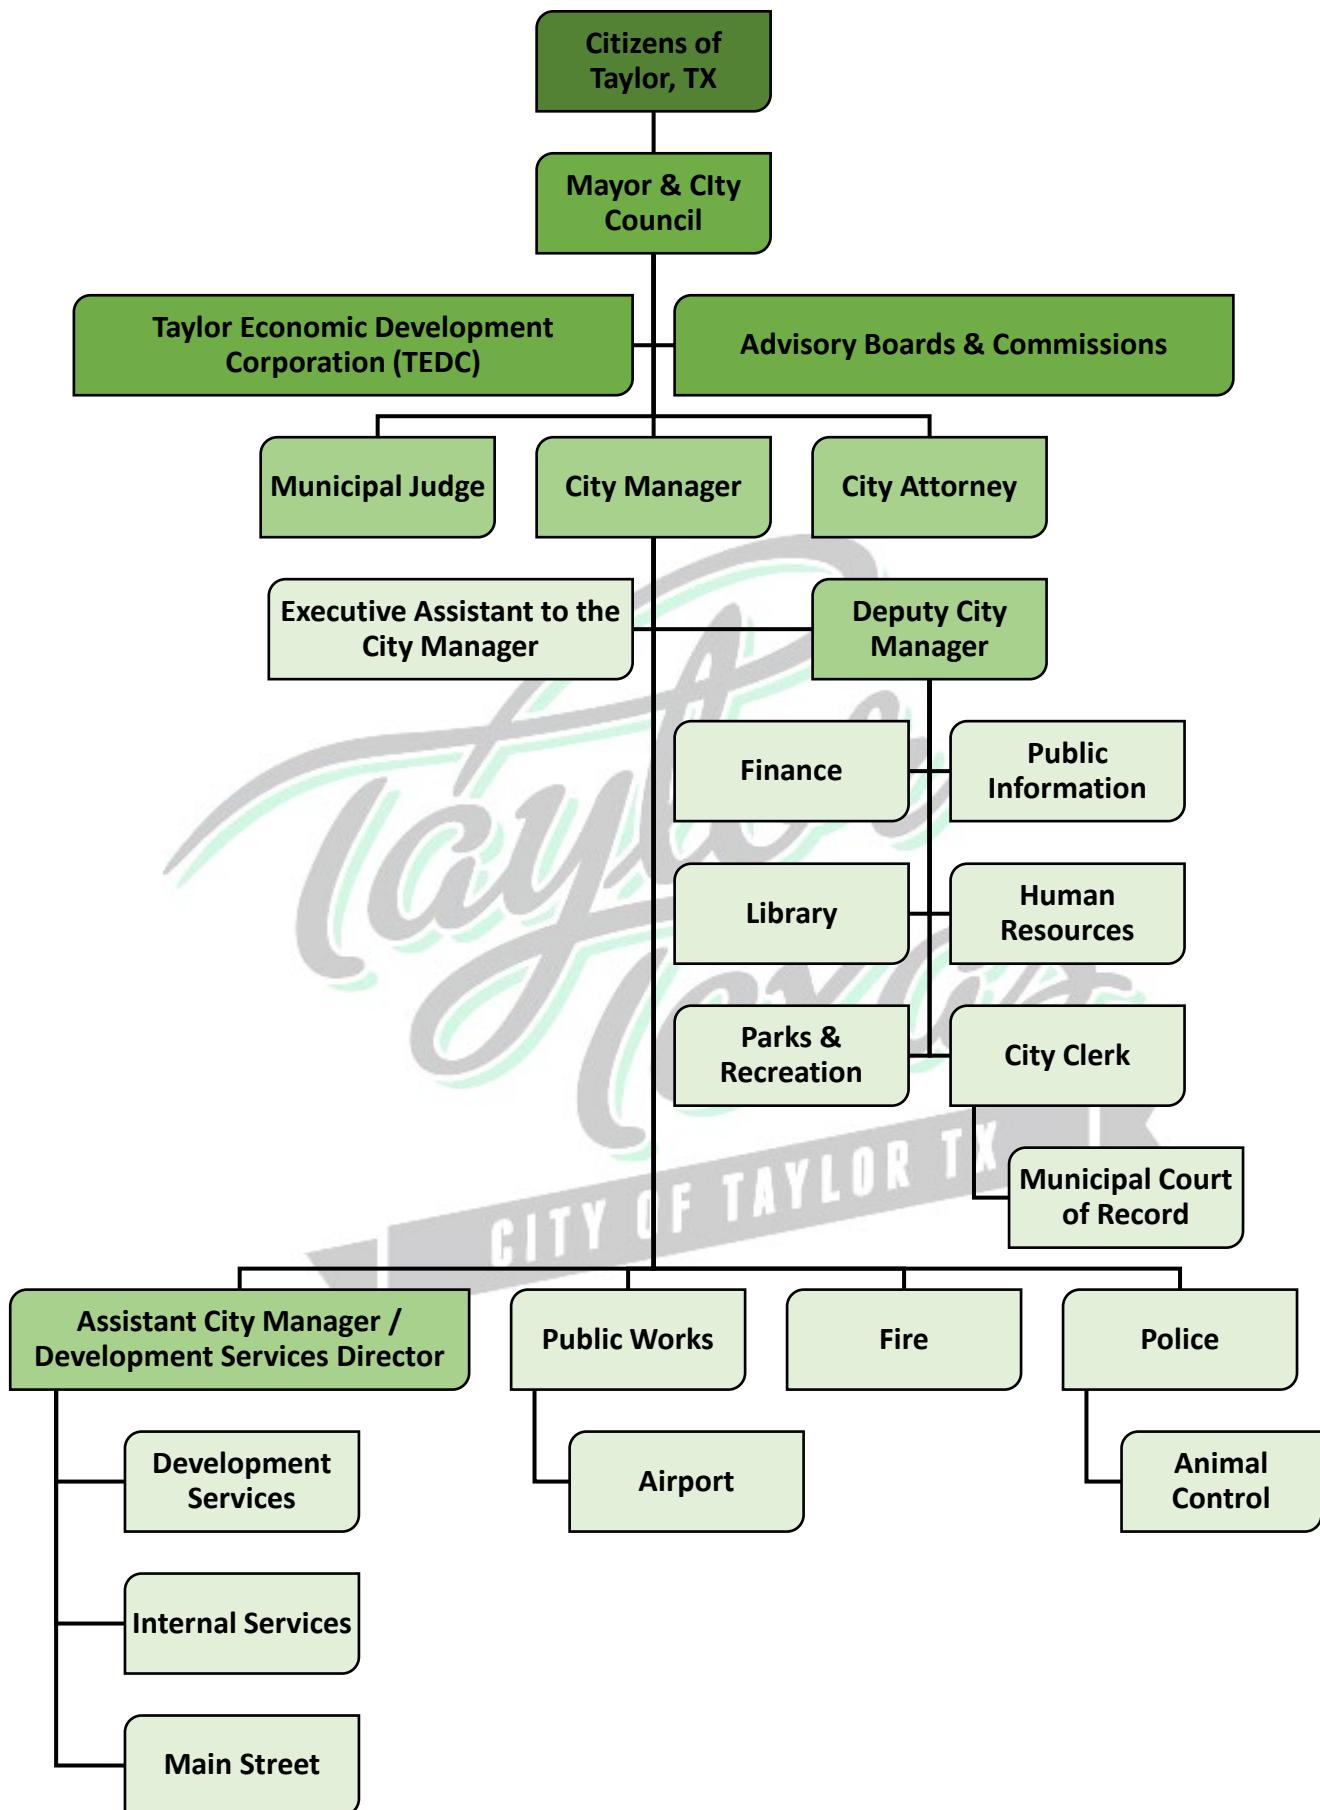

Respectfully submitted,

A handwritten signature in blue ink that reads "Jeffrey B. Wood". The signature is fluid and cursive, with "Jeffrey" on the top line and "B. Wood" on the bottom line.

Jeffrey B. Wood  
Chief Financial Officer

## ***FINANCIAL SECTION***

**INDEPENDENT AUDITOR'S REPORT**

To the Honorable Mayor and  
Members of the City Council  
City of Taylor, Texas:

**Report on the Audit of the Financial Statements**

*Opinions*

We have audited the accompanying financial statements of the governmental activities, business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Taylor, Texas (the "City") as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Taylor, Texas, as of September 30, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

*Basis for Opinions*

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of City of Taylor, Texas and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

*Responsibilities of Management for the Financial Statements*

The City's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the

preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for one year after the date that the financial statements are issued.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## ***Other Matters***

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion, the budgetary comparison, schedule of changes in net pension liability and related ratios, schedule of employer contributions to pension plan, and schedule of changes in the other postemployment benefits liability and related ratios, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Other Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise City of Taylor, Texas's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, the supplemental schedules, and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

*Other Reporting Required by Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 22, 2023 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

The signature is handwritten in black ink. It starts with a large, stylized 'B', followed by 'rooks' and 'Watson', and ends with 'Co.' on a separate line.

***MANAGEMENT'S DISCUSSION  
AND ANALYSIS***

# **City of Taylor, Texas**

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

### **September 30, 2022**

As management of the City of Taylor, Texas (the "City"), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2022. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i-vii of this report.

#### **Financial Highlights**

- The assets and deferred outflows of the City exceeded its liabilities and deferred inflows (net position) at September 30, 2022 by \$113,738,048.
- The City's total net position increased by \$31,842,867. The majority of the City's net position is invested in capital assets and restricted for specific purposes.
- The City's governmental funds reported combined ending fund balances of \$35,681,070 at September 30, 2022, an increase of \$18,744,707 from the prior fiscal year; this includes an increase of \$2,666,663 in the general fund, an increase of \$15,696,217 in the capital improvements fund, an increase of \$179,808 in the I&S fund, and an increase in the transportation user fee fund of \$101,561.
- At the end of the fiscal year, unassigned fund balance for the general fund was \$8,543,460 or 44% of total general fund expenditures.
- The City's outstanding bonds, tax notes, and certificates of obligations increased by \$23,630,000 from the prior year. The total bonds and certificates of obligation payable at the close of the fiscal year were \$74,335,000.
- The City's net pension liability totaled \$2,099,431 as of yearend.

#### **Overview of the Financial Statements**

The discussion and analysis provided here are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) the notes to financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

#### **Government-Wide Statements**

The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

# City of Taylor, Texas

## *MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)*

### September 30, 2022

The *statement of net position* presents information on all of the City's assets and liabilities. The difference between the two is reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. Other non-financial factors, such as the City's property tax base and the condition of the City's infrastructure, need to be considered in order to assess the overall health of the City.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, culture and recreation, community development, public safety, and public works. The business-type activities of the City include water and sewer, airport, and cemetery operations.

The government-wide financial statements include not only the City itself (known as the *primary government*), but also the legally separate Taylor Economic Development Corporation for which the City is financially accountable. Financial information for this component unit is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 22-27 of this report.

## **FUND FINANCIAL STATEMENTS**

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

### **Governmental Funds**

*Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

# City of Taylor, Texas

## *MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)*

### September 30, 2022

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains eleven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, capital improvements fund, the I&S for CO bonds fund, and the transportation user fee fund (a special revenue fund), which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in a separate section of the report.

The City adopts an annual appropriated budget for its general, I&S for CO bonds, and special revenue funds. A budgetary comparison statement has been provided for each fund to demonstrate compliance with their respective budget.

The basic governmental fund financial statements can be found on pages 28-33 of this report.

### **Proprietary Funds**

The City maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses an enterprise fund to account for its public utilities, airport, cemetery operations and sanitation. All activities associated with providing such services are accounted for in these funds, including administration, operation, maintenance, debt service, capital improvements, meter maintenance, billing and collection. The City's intent is that costs of providing the services to the general public on a continuing basis is financed through user charges in a manner similar to a private enterprise. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for the maintenance and purchase of equipment.

Proprietary financial statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water and sewer fund since it is considered a major fund of the City.

The basic proprietary fund financial statements can be found on pages 36-45 of this report.

# **City of Taylor, Texas**

**MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**

**September 30, 2022**

## **Component Units**

The City maintains the accounting and financial statements for two component units. The Taylor Economic Development Corporation and the Tax Increment Financing Funds are discretely presented component units displayed on the government-wide financial statements.

## **Notes to Financial Statements**

The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statements can be found on pages 47-96 of this report.

## **Other Information**

In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning the City's changes in net pension liability and employer contributions to the plan.

## **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

As noted previously, net position may serve over time as a useful indicator of the City's financial position. For the City of Taylor, Texas, assets and deferred outflows exceeded liabilities and deferred inflows by \$113,738,048 as of September 30, 2022, in the primary government.

The largest portion of the City's net position, \$80,050,853, reflects its investments in capital assets (e.g., land, city hall, police station, streets, and drainage systems, as well as the public works facilities), less any debt used to acquire those assets that are still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the assets themselves cannot be used to liquidate these liabilities.

**City of Taylor, Texas**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**  
**September 30, 2022**

**Statement of Net Position:**

The following table reflects the condensed Statement of Net Position:

<b>Total Net Position</b>	<b>\$ 62,957,466</b>	<b>\$ 50,780,582</b>	<b>\$ 113,738,048</b>	<b>\$ 55,470,008</b>	<b>\$ 26,425,173</b>	<b>\$ 81,895,181</b>		

Government-wide current assets increased by \$43,541,675 primarily due to greater cash and investments on hand resulting from unspent bond proceeds as of yearend. Government-wide capital assets increased \$14,487,136 due primarily to utility infrastructure related to a new semiconductor plan. Government-wide long-term liabilities increased by \$24,228,547 due to new bond issuances in the current year. In addition, TMRS had a significant increase in investment income due to favorable market conditions, which led to the decrease in the net pension liability.

**City of Taylor, Texas**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**  
**September 30, 2022**

Graphic presentations of selected data from the summary tables are displayed below to assist in the analysis of the City's activities.

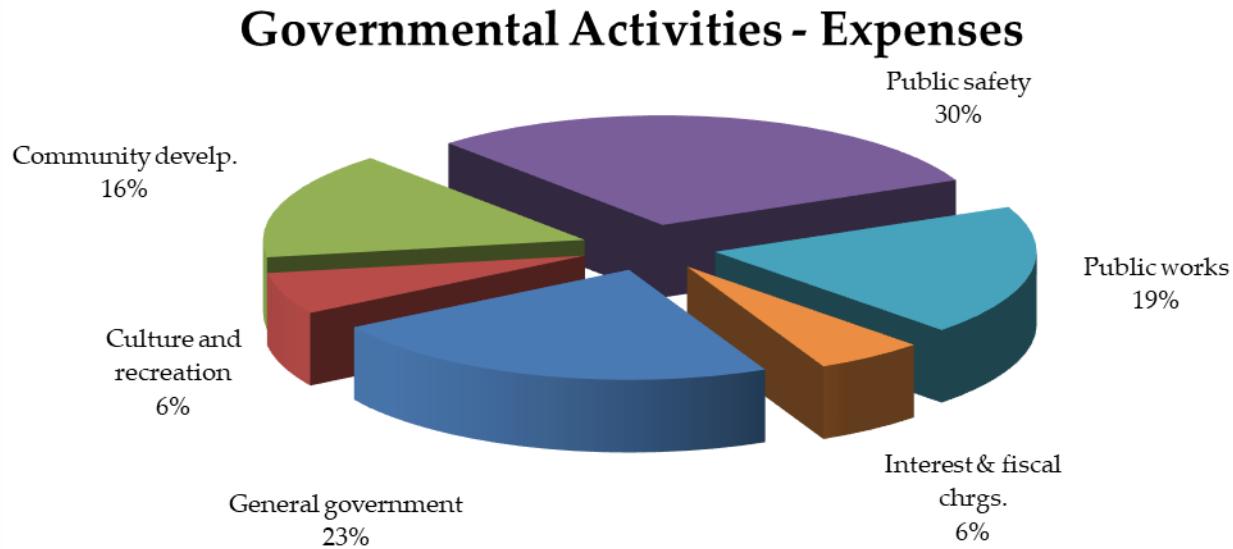

## Governmental Activities - Revenues

For the year ended September 30, 2022, revenues from governmental activities totaled \$28,483,508. Property tax, charges for services, capital grants, and sales tax are the City's largest general revenue sources. Overall revenue increased \$4,469,685 or 19% from the prior year. Property tax revenue increased \$808,412 due to greater property values and a growing tax base. Sales tax revenue increased by \$2,120,829 due to local growth and construction of new Samsung semiconductor plant over the course of the year. Charges for services increased \$763,017 due to greater plan review fees and subdivision fees resulting from new construction and local growth. Investment income increased by \$213,807 due to rising interest rates and greater interest-bearing account balances. Other revenues increased by \$403,026 or 25% primarily due to advanced funding received to expedite the development review and approval of the semiconductor plant construction in the current year. All other revenues remained relatively stable when compared to the previous year.

**City of Taylor, Texas**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**  
**September 30, 2022**

This graph shows the governmental function expenses of the City:

For the year ended September 30, 2022, expenses for governmental activities totaled \$22,908,763. This represents an increase of \$1,614,918 or 8% from the prior year. The City's largest functional expense is public safety totaling \$6,853,371. Public safety decreased \$445,647 or 6% when compared to the prior year primarily due to a reduction in personnel costs, resulting from declining compensated absence liabilities over the course of the year. Community development expenses increased by \$1,956,024 or 115% primarily as a result of new planner and permit technician positions created in the current year. In addition, the City incurred greater depreciation expenses and costs for development plan reviews/inspections resulting from new construction projects during the year. Culture and recreation decreased by \$330,697 or 19% primarily due to greater capitalizable expenses incurred in the current year. Public works increased by \$480,939 or 12% resulting from current year raises, greater fuel and vehicle rental expenses, and increasing asset depreciation over the course of the year. Interest and fiscal charges increased by \$216,455 or 21% primarily due to nonrecurring bond issuance costs recognized in the current year. All remaining expenses remained relatively consistent with the previous year.

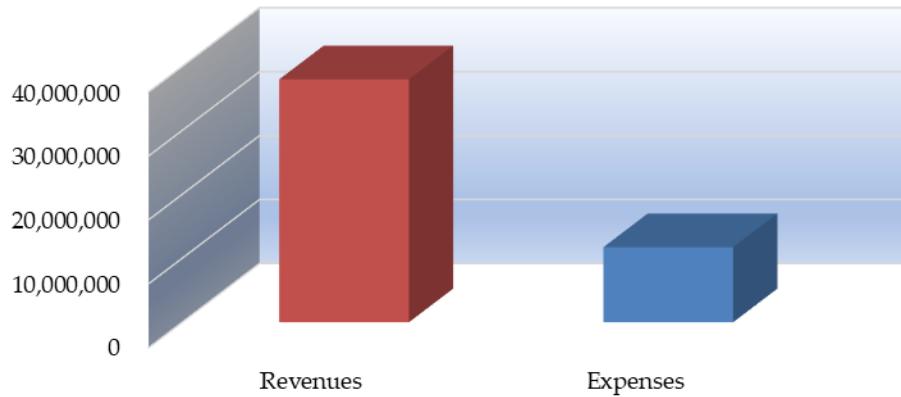

# City of Taylor, Texas

## MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

September 30, 2022

Business-type activities are shown comparing operating costs to revenues generated by related services.

### Business-Type Activities - Revenues and Expenses

For the year ended September 30, 2022, charges for services by business-type activities totaled \$15,338,346. This is an increase of \$2,126,008, or 16%, from the previous year. This increase is primarily attributed to the 10% increase in water and sewer service rates during the year. In addition, local growth resulted in new connections, increased consumption, and overall utility customers were up as of the end of the year.

Total expenses increased \$1,816,168 or 18% to a total of \$11,728,159. Public utility expenses totaled \$9,180,589, while airport, cemetery operations, and sanitation totaled \$706,156, \$243,933, and \$1,597,481, respectively. The largest increase was seen in public utility expenses. This increase was mainly attributed to personnel costs, treated water contract expenses, asset depreciation, and supplies expenses.

### FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, fund accounting is used to demonstrate and ensure compliance with finance-related legal requirements.

Governmental Funds - The focus of the City's governmental funds is to provide information of near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the City's net resources available for spending at the end of the year.

At September 30, 2022, the City's governmental funds reported combined fund balances of \$35,681,070, an increase of \$18,744,707 in comparison with the prior year. Approximately 24% of this amount, \$8,543,460, constitutes *unassigned fund balance*, which is available for spending at the government's

# City of Taylor, Texas

## *MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)*

### September 30, 2022

discretion. The remainder of the fund balance is either *nonspendable, restricted or committed* to indicate that it is 1) not in spendable form \$723,054, 2) committed \$1,810,252 or 3) restricted for particular purposes \$24,604,304.

As of the end of the year the general fund reflected a total fund balance of \$10,969,068. Of this, \$2,425,608 is considered restricted and \$8,543,460 is unassigned. General fund balance increased by \$2,666,663. This increase is consistent with the City's planned budgeted increase in fund balance of \$3,009,344. In addition, property taxes, sales taxes, and charges for services increased significantly compared to the prior year.

As a measure of the general fund's liquidity, it may be useful to compare total unassigned fund balance to total fund expenditures. The unassigned (the amount available for spending) fund balance of the general fund of \$8,543,460 is 44% of total general fund operating expenditures.

The capital improvements fund had an ending fund balance of \$20,635,168 as of yearend. Total fund balance increased by \$15,696,217 from the prior year primarily due to proceeds from bond issuances in the current year. During the year, the City expended \$5,814,163 on various capital improvement projects recorded in this fund.

The I&S for CO bonds fund had an ending fund balance of \$1,132,769 at September 30, 2022, an increase of \$179,808 when compared to the previous year. During the year, the fund recorded total principal and interest payments of \$3,184,862 and property tax revenue of \$2,906,755. The increase in fund balance was a result of I&S tax levies and transfers from other funds exceeding expectations.

The transportation user fee fund had an ending fund balance of \$1,512,467 at September 30, 2022, an increase of \$101,561 when compared to the prior year. The increase is a result of greater than anticipated user fees earned during the year.

**Proprietary Funds** - The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Net position in the City's largest proprietary fund, the public utility fund, totaled \$44,994,134. Unrestricted net position at the close of the fiscal year amounted to \$8,333,596, a total increase of \$3,096,587 from the previous year. Total investment in capital assets, net of related debt of was \$24,426,607, and capital assets, net of depreciation totaled \$47,757,146

## **GENERAL FUND BUDGETARY HIGHLIGHTS**

Supplemental budget amendments were approved during the fiscal year increasing total budgeted expenditures by \$2,374,650 and increasing total revenues by \$5,277,197 resulting in a net increase in budgeted fund balance of \$3,006,746. The primary reasons for the budget revision were due to higher than expected sales taxes, as well as, advanced funding received through a development review services contract. Expenditures were amended to account for general revisions to reflect actual

# **City of Taylor, Texas**

## ***MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)***

**September 30, 2022**

operating results. Total budgeted revenues of \$20,281,797 were more than actual revenues of \$19,999,289, resulting in a total negative revenue variance of \$282,508. Total budgeted expenditures of \$19,344,784 were more than actual expenditures of \$19,277,226, resulting in a total positive expenditure variance of \$67,558.

### **CAPITAL ASSETS**

As of the end of the year, the City's governmental activities funds had invested \$77,100,583 in a variety of capital assets and infrastructure, net of accumulated depreciation including assets recorded in the internal service funds of \$2,011,794. The City's business-type activities funds had invested \$53,126,474 in a variety of capital assets and infrastructure, net of accumulated depreciation. This investment in capital assets includes land, buildings, vehicles, equipment, park improvements, and infrastructure.

Major capital asset additions during the current year include the following:

- Regional park expansion and Doak Park project investments totaling \$1,566,656.
- Percussion Park improvements for \$260,191.
- Various 2019 Bond infrastructure improvements totaling \$1,298,097.
- Bull Branch/Donna drainage projects totaling \$286,593.
- Robison Field lighting improvements for \$119,895.
- Purchased new machinery and equipment for public works department totaling \$1,223,516.
- Purchased body camera system for \$92,620.
- Acquired land for justice center for \$575,715.
- Capital contributions totaling \$22,351,425 (including advanced funding) for utility infrastructure to support new Samsung semiconductor plant.
- Mustang Creek wastewater improvements totaling \$2,144,946.
- FM 973 & CR 401 water wand wastewater improvements for \$8,089,732.
- Castlewood Phase 1 project improvements totaling \$1,596,831.

More detailed information about the City's capital assets is presented in note IV. D to the financial statements.

### **LONG-TERM DEBT**

The City's outstanding bonds, tax notes, and certificates of obligation payable net of all premiums and discounts increased by \$25,266,987 or 47% from the prior year. The total bonds and certificates of obligation payable at the close of the fiscal year were \$78,477,979, net of all premiums and discounts. All of the City's debt is backed by a full-faith credit pledge of property taxes with a limited pledge of revenues of the enterprise/utility system. The City monitors its debt obligations and callable bonds for refinancing opportunities with market conditions.

# **City of Taylor, Texas**

## ***MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)***

**September 30, 2022**

More detailed information about the City's long-term liabilities is presented in note IV. F to the financial statements.

### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES**

The local economy is expanding as evidenced by increasing sales tax collections and new construction activity. In FY2022, the City issued a total of 1509 building permits with a total valuation of \$1,166,317,719. This is an increase in permit valuation of \$1,072,524,750 from the previous year. While growth provides additional revenue to the City of Taylor, it also increases the demands on City services and infrastructure. The City has been planning for growth by updating the Taylor Comprehensive Plan, by completing a public utilities assessment, a park facilities plan, and a comprehensive drainage improvement plan.

One of the larger challenges the City of Taylor faces is the utility infrastructure in the core, central part of town. This area is the oldest part of the city with a downtown area that dates back to 1876. This area has water and wastewater pipes that are decades old and in need of replacement. To fund improvements to this aging infrastructure and expand the system's capacity for growth, the City plans to issue a series of bonds that are funded by a combination of utility revenues and property tax proceeds. The most recent bond in this series of planned debt was issued in March 2022.

Meeting the challenges created by growth requires financial resources, a City Council vision, and budgetary constraint. The Avery Glen residential development began construction in early 2019 and was completed by the end of 2021. The Grove residential development began infrastructure construction in 2020 and began home construction in 2021. This community should be completed by mid-year 2023. Both developments could seek approval for additional builds if the economy continues to grow. In addition, a new mixed residential development named Castlewood completed its infrastructure construction in mid-2022 and began home construction in the Fall of 2022. This development has two planned phases offering a mix of individual and multi-family housing and will be built over the next 24 to 36 months. Other residential developments are currently under consideration and review.

On the commercial side, the City of Taylor continues to attract interest from family-owned businesses and regional chain establishments. The City has contracted with a consultant to assist in marketing the area to potential new commercial entities and helping them find suitable locations in Taylor. These efforts have resulted in a new Starbucks location that opened in late 2022 and a regional pet store that will open in the first quarter of 2023.

The City of Taylor continues to seek and attract industrial business. Hart Components completed construction on a new manufacturing facility in 2021. Hart Components manufactures roof trusses and provides both property tax and sales tax revenues. RCR Taylor Logistics Park, a master planned rail-served logistic & industrial park broke ground in 2019 and continues to develop and market the property. The mix of commercial and industrial businesses located in the park will provide both sales

# City of Taylor, Texas

## *MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)*

September 30, 2022

and property taxes to the City. Finally, in Q4 2021 Samsung Semiconductor announced that they would build a 6,000,000 square foot, \$17 billion semiconductor manufacturing facility in Taylor. Construction of this facility began in early 2022 and it is anticipated that the first of two planned fabrication facilities will begin manufacturing by the end of 2023. This facility will provide thousands of construction jobs as well as 1,800 permanent jobs. The company owns more than 1,200 acres of property at the site and has requested property tax relief for an additional eight fabrication facilities. There are no plans in place currently for the construction of these additional facilities. It is also anticipated that ancillary suppliers for Samsung will build facilities in the vicinity of the new plant.

For many years, the City's economy has been largely based on agriculture and small commercial businesses. These are still important aspects to the city and surrounding area today, however, the City of Taylor and the Taylor Economic Development Corporation actively recruit companies that add to the diversity of the City's local economy while providing residents with good employment opportunities. A major industry that is located within the City of Taylor is the Electric Reliability Council of Texas (ERCOT), which manages the flow of electric power to more than 26 million Texas customers, or about 90 percent of the state's electric load. ERCOT is the City's largest employer with over 600 employees working in Taylor. Other large employers in the city include the Taylor Independent School District (TISD), Wal-Mart and Durcon.

The property tax rate for tax year 2022 (fiscal year 2023) is \$0.648953 per \$100 valuation, a reduction of 11.62 cents from the previous year. Approximately 70 percent of this rate, or \$0.453380, is utilized for General Fund maintenance and operating activities. The remaining 30 percent, or \$0.195573, is used for debt service. The General Fund's portion of property tax revenue for fiscal year 2023 is estimated to be \$8,860,000. Sales tax revenue for fiscal year 2023 is budgeted at \$11,325,000 and represents an increase of \$7,075,000 compared to FY2022. The higher sales tax revenues are indicative of the economic impact of the new Samsung Semiconductor facility being built and the residential growth experienced over the last three years.

The City's Fund Balance Policy requires that the General Fund maintains a minimum of three months of operating expenditures as unassigned reserves. The unassigned fund balance for the general fund can be found in the Financial Highlights section of the Management Discussion and Analysis. It is intended that the available fund balance beyond the minimum will be used for capital outlay and emergency expenditures. We anticipate that revenues and expenditures for fiscal year 2023 will allow fund balance to remain at adequate levels to meet these stated goals and objectives.

The largest revenue source for the Utilities Fund is water and wastewater user fees, accounting for 98 percent of utility revenues. A water and sewer rate study was completed and adopted by the City Council during fiscal year 2015 and rate increases were implemented beginning in fiscal year 2016 and increased annually for the next four years, ending in 2019. There was not a rate increase for water or sewer services in fiscal year 2020 or fiscal year 2021. A new rate study was completed in 2021 and presented to the City Council for consideration. Ten percent rate increases for both water and sewer services were approved for fiscal year 2022. For fiscal year 2023, the City Council approved a ten

# **City of Taylor, Texas**

## ***MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)***

**September 30, 2022**

percent increase to the water rates and an eight percent increase to the sewer rates. It is anticipated that additional rate increases will be needed in the coming fiscal years. Water and sewer rate increases are used to cover increasing operational costs, to fund capital improvements and to build up reserves in the Public Utilities Fund. The current rate system, which focuses on water conservation, implements an increasing tier rate which charges a higher price for water at higher levels of consumption.

In 2016, the City Council approved an ordinance establishing a Transportation User Fee (TUF) that applies to properties within the City of Taylor. A flat fee of \$8.00 per equivalent residential unit is assessed, with commercial customers being assessed at 6 different tier levels that ranged from \$25 to \$133 per month. The total annual revenue generated from the TUF is projected to be \$850,500 for the fiscal year 2023. The TUF was designed to address a portion of the street repair and maintenance expenses for Taylor's aged infrastructure but is not enough to meet the demands of all the lower rated streets.

The City contracts with a solid waste collection provider for sanitation and recycling services within the city limits. Sanitation and recycling fees for all customer classes were increased 3.4% for fiscal year 2023. This was the second part of a two-year rate increase that was approved in 2021. The City is in negotiations with our current solid waste collection provider for a contract extension, and it is anticipated that sanitation rates will be increased again for the 2024 fiscal year.

The City of Taylor assesses a Municipal Drainage Utility System (MDUS) fee to provide funding for the maintenance and improvement of the City's drainage system. The fee for residential dwellings remains at \$3.00 per equivalent residential unit per month in fiscal year 2023. The fee for non-residential properties remains at \$3.00 per 2,500 square feet of impervious area. The total annual revenue generated from the MDUS fee is projected to be \$523,500 for the fiscal year 2023.

## **CONTACTING THE CITY'S FINANCIAL MANAGEMENT**

The financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the City's finances. If you have questions about this report or need any additional information, contact the Department of Finance at 400 Porter St., Taylor Texas 76574 or call (512) 352-5997.

## RECONCILIATION OF THE BALANCE SHEET TO THE STATEMENT OF NET POSITION GOVERNMENTAL FUNDS September 30, 2022

**Fund Balances - Total Governmental Funds** \$ 35,681,070

**Adjustments for the Statement of Net Position:**

Capital assets used in governmental activities are not current financial resources and, therefore, not reported in the governmental funds.

Capital assets - non-depreciable	9,120,512
Capital assets - net depreciable	65,968,277

Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the governmental funds. 733,084

Deferred outflows of resources, represent a consumption of net position that applies to a future period(s) and is not recognized as an outflow of resources (expenditure) until then.

Deferred charge on refunding	111,408
Pension Outflows-TMRS	888,075
OPEB Outflows-TMRS	92,940

Internal service funds are used by management to charge the cost of equipment services and replacement to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.

Net position - governmental activities	(144,012)
--	-----------

Deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Pension Inflows-TMRS	(1,781,643)
OPEB Inflows-TMRS	(25,165)
OPEB Inflows-Healthcare	(98,482)

Some liabilities, including bonds payable and compensated absences, are not reported as liabilities in the governmental funds.

Net pension liability	(1,765,476)
OPEB liability-Supplemental Death Fund	(552,007)
OPEB liability-Retiree Healthcare	(734,938)
Accrued interest	(228,401)
Bond premium	(2,270,930)
Compensated absences	(911,846)
Non-current liabilities due in one year	(2,375,000)
Non-current liabilities due in more than one year	(38,750,000)
<b>Net Position of Governmental Activities</b>	<b>\$ 62,957,466</b>

See Notes to Financial Statements.

## *RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES*

**For the Year Ended September 30, 2022**

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances - total governmental funds	\$ 18,744,707
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	
Capital outlay	6,083,617
Depreciation expense	(2,944,732)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	
	476,568
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	
Pension expense	667,818
OPEB expense	(83,223)
Compensated absences	652,058
Accrued interest	(104,117)
Amortization of deferred charges on refunding	(29,271)
Amortization of bond premium and discounts	186,818
The issuance of long-term debt (e.g., bonds, leases, certificates of obligation) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when they are first issued; whereas, these amounts are deferred and amortized in the statement of activities.	
This amount is the net effect of these differences in the treatment of long-term debt and related items.	
Principal payments	2,550,000
Bonds issued	(17,660,000)
Premiums on debt issued	(1,051,200)
Internal service funds are used by management to charge the cost of equipment services and replacement to individual funds. The net revenue of certain activities of internal service funds is reported with governmental activities.	
	(1,585)
<b>Change in Net Position of Governmental Activities</b>	<b>\$ 7,487,458</b>

See Notes to Financial Statements.

## NOTES TO FINANCIAL STATEMENTS

### September 30, 2022

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

##### A. Description of government-wide financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, the *primary government* is reported separately from certain legally separate component units for which the primary government is financially accountable.

##### B. Reporting Entity

The City of Taylor, Texas is a municipal corporation incorporated under *Article XI. Section 5* of the *Constitution of the State of Texas (Home Rule Amendment)* in 1914. The City operates under a Council-Manager form of government. The City provides such services as are authorized by its charter to advance the welfare, health, comfort, safety and convenience of the City and its inhabitants.

The City is an independent political subdivision of the State of Texas governed by an elected council and a mayor and is considered a primary government. As required by generally accepted accounting principles, these basic financial statements have been prepared based on considerations regarding the potential for inclusion of other entities, organizations, or functions as part of the City's financial reporting entity. The Taylor Economic Development Corporation (the "TEDC") and the Tax Increment Financing Fund (the "TIF"), although legally separate, are considered part of the reporting entity. No other entities have been included in the City's reporting entity. Additionally, as the City is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity.

Considerations regarding the potential for inclusion of other entities, organizations or functions in the City's financial reporting entity are based on criteria prescribed by generally accepted accounting principles. These same criteria are evaluated in considering whether the City is a part of any other governmental or other type of reporting entity. The overriding elements associated with prescribed criteria considered in determining that the City's financial reporting entity status is that of a primary government are that it has a separately elected governing body; it is legally separate; and is fiscally independent of other state and local governments. Additionally prescribed criteria under generally accepted accounting principles include considerations pertaining to organizations for which the primary government is financially accountable, and considerations pertaining to organizations for which the nature and significance of their relationship with the primary government are

# **City of Taylor, Texas**

## ***NOTES TO FINANCIAL STATEMENTS, Continued***

**September 30, 2022**

such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

### **Discretely Presented Component Units**

#### Taylor Economic Development Corporation

The Taylor Economic Development Corporation (the "TEDC") serves all citizens of the City and is governed by a five member board of directors appointed by the Taylor City Council. An Executive Director is appointed by the TEDC board to carry out the Board's administrative and policy initiatives. The TEDC is a 4A Corporation and is supported by a half-cent sales tax voted by referendum in 1994. The scope of public service of the TEDC benefits the government and its citizens and is operated primarily within geographic boundaries of the City.

Separately issued audited financial statements are available from TEDC, 316 North Main, Taylor, TX 76574.

#### Tax Increment Financing Fund

The Tax Increment Financing fund is legally separate from the City and was created to encourage and accelerate planned development within the City limits. The fund accounts for all tax and expenditure activity associated with the fund's primary purpose. The tax increment is derived from the difference in appraised value between the year in which the reinvestment zone is established (base year) and each year the reinvestment zone is in existence. The Board of Directors shall consist of at least five members, but no more than fifteen members including any members appointed by the participating taxing units, and that the Taylor Main Street Advisory Board is appointed to serve as the Board of Directors. The current Board is not primarily comprised of City Council members. Therefore, discrete presentation is appropriate. Separately issued audited financial statements are not available. However, the fund's government wide presentation represents a complete presentation of the entity's activity.

### **C. Basis of Presentation - Government-Wide and Fund Financial Statements**

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds and the proprietary funds.

As discussed earlier, the government has two discretely presented component units and are shown in separate columns in the government-wide financial statements.

# **City of Taylor, Texas**

## **NOTES TO FINANCIAL STATEMENTS, *Continued***

### **September 30, 2022**

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the government's water and transit functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

The fund financial statements provide information about the government's funds, including its fiduciary funds and blended component units. Separate statements for each fund category; governmental and proprietary are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The government reports the following major governmental funds:

#### **General Fund**

The general fund is used to account for all financial transactions not properly includable in other funds. The principal sources of revenues include local property taxes, sales and franchise taxes, licenses and permits, fines and forfeitures, and charges for services. Expenditures include general government, public safety, public works, culture and recreation, and community development.

#### **Capital Improvements Fund**

The capital improvements fund accounts for the acquisition and construction of the government's major capital facilities, other than those financed by proprietary funds.

#### **I&S for CO Bonds Fund**

The City accounts for the accumulation of financial resources for the payments of principal, interest and related costs on general long-term debt paid primarily from taxes levied by the City. The fund balance of the I & S for CO Bonds fund is restricted exclusively for debt service expenditures.

#### **Transportation User Fee Fund**

The transportation user fee fund collects revenues used to fund street maintenance and reconstruction of streets related expenditures and projects.

# **City of Taylor, Texas**

## **NOTES TO FINANCIAL STATEMENTS, *Continued***

**September 30, 2022**

The government reports the following major enterprise funds:

### **Public Utilities Fund**

Water and wastewater services provided by the City are accounted for in the public utilities fund. Activities of the fund include administration, operation and maintenance of the water and wastewater system, and billing and collection activities. The fund also accounts for the accumulation of resources for, and the payment of, long-term debt principal and interest for water and wastewater debt. All costs are financed through charges to utility customers with rates reviewed regularly and adjusted if necessary to ensure the integrity of the funds.

### **Airport**

The Airport fund accounts for the administration, operation and maintenance of the municipal airport.

### **Cemetery Operating Fund**

The Cemetery operating fund accounts for the administration, operation and maintenance of the cemetery.

### **Sanitation Fund**

The Sanitation fund accounts for the operation and maintenance of the sanitation department.

Additionally, the government reports the following fund types:

### **Special Revenue Funds**

The City accounts for resources restricted to, or designated for, specific purposes in a special revenue fund. These funds consist of the hotel/motel tax, Texas capital, main street revenue, cemetery land purchases, municipal court special fee, and drainage funds.

### **Internal Service Funds**

Revenues and expenses related to services provided to organizations inside the City on a cost reimbursement basis are accounted for in an internal service fund. The City's internal service funds include the equipment services and equipment replacement funds.

# City of Taylor, Texas

## *NOTES TO FINANCIAL STATEMENTS, Continued*

### September 30, 2022

#### **Permanent Fund**

Chapter 6 Section 6-8 of the City Code establishes a cemetery trust fund subject to control of the City Council. Interest income from the investment of the permanent fund is to be used for beautification and upkeep of the cemetery. The City's only permanent fund is the cemetery permanent fund.

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

#### **D. Measurement focus and basis of accounting**

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon

# City of Taylor, Texas

## *NOTES TO FINANCIAL STATEMENTS, Continued*

### September 30, 2022

as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary, pension and other postemployment benefit trust, and private-purpose trust funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting*.

## **E. Assets, Liabilities, Deferred Outflows / Inflows, and Fund Equity or Net Position**

### **1. Deposits and Investments**

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short term investments with original maturities of three months or less from the date of acquisition. For the purpose of the statement of cash flows, the proprietary fund types consider temporary investments with maturity of three months or less when purchased to be cash equivalents.

In accordance with GASB Statement No. 31, *Accounting and Reporting for Certain Investments and External Investment Pools*, the City reports all investments at fair value, except for "money market investments" and "2a7-like pools." Money market investments, which are short-term highly liquid debt instruments that may include U.S. Treasury and agency obligations, are reported at amortized costs. Investment positions in external investment pools that are operated in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940, such as TexPool, are reported using the pools' share price.

# **City of Taylor, Texas**

## **NOTES TO FINANCIAL STATEMENTS, *Continued***

### **September 30, 2022**

The City has adopted a written investment policy regarding the investment of its funds as defined in the Public Funds Investment Act, Chapter 2256, of the Texas Governmental Code. In summary, the City is authorized to invest in the following:

- Direct obligations of the U.S. Government
- Fully collateralized certificates of deposit and money market accounts
- Statewide investment pools

#### **2. Fair Value**

The City has applied Governmental Accounting Standards Board ("GASB") Statement No. 72, Fair Value Measurement and Application. GASB Statement No. 72 provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements.

#### **3. Receivables and Interfund Transactions**

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the year are referred to as either "interfund receivables/payables" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds" in the fund financial statements. If the transactions are between the primary government and its component unit, these receivables and payables are classified as "due to/from component unit/primary government." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds are offset by a nonspendable fund balance account in the applicable governmental fund to indicate they are not available for appropriation and are not expendable available financial resources.

All trade receivables are shown net of any allowance for uncollectible amounts.

#### **4. Inventories and Prepaid Items**

The costs of governmental fund type inventories are recorded as expenditures when the related liability is incurred, (i.e., the purchase method). Inventories of supplies are reported at cost, whereas inventories held for resale are reported at lower of cost or market. Certain payments to vendors reflect costs applicable to future accounting periods (prepaid expenditures) are recognized as expenditures when utilized.

# City of Taylor, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2022

#### 5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government, as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art, and capital items received in a service concession arrangement are reported at acquisition value. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Interest costs incurred in connection with construction of enterprise fund capital assets are capitalized when the effects of capitalization materially impact the financial statements. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Property, plant, and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful years.

<b>Asset Description</b>	<b>Estimated Useful Life</b>
Vehicles	5 to 10 years
Machinery and equipment	5 to 10 years
Infrastructure	5 to 30 years
Buildings and improvements	25 years

#### 6. Deferred Outflows / Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/ expenditure) until then. The government only has two items that qualify for reporting in this category. It is the deferred charge on refunding and deferred pension/OPEB outflows reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for *deferred inflows of resources*. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of

# City of Taylor, Texas

## *NOTES TO FINANCIAL STATEMENTS, Continued*

### September 30, 2022

accounting, that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

#### **7. Net Position Flow Assumption**

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

#### **8. Fund Balance Flow Assumptions**

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

#### **9. Fund Balance Policies**

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance). The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds other than the general fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The governing council is the highest level of decision-making

# City of Taylor, Texas

## *NOTES TO FINANCIAL STATEMENTS, Continued*

### September 30, 2022

authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The governing body (council) has by resolution authorized the finance director to assign fund balance. The council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

The government has adopted a policy to maintain a minimum reserve of unassigned fund balance in the general fund at an amount equal to or greater than 25% of operating expenditures of that fund.

## **10. Long-Term Obligations**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. The long-term debt consists primarily of bonds payable and accrued compensated absences.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements until due. The debt proceeds are reported as other financing sources, net of the applicable premium or discount and payments of principal and interest reported as expenditures. In the governmental fund types, issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures. However, claims and judgments paid from governmental funds are reported as a liability in the fund financial statements only for the portion expected to be financed from expendable available financial resources.

Long-term debt and other obligations, financed by proprietary funds, are reported as liabilities in the appropriate funds. For proprietary fund types, bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method, if material. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs are expensed when incurred.

Assets acquired under the terms of leases are recorded as liabilities and capitalized in the government-wide financial statements at the present value of net minimum lease payments at inception of the lease. In the year of acquisition, lease transactions are recorded as other

# City of Taylor, Texas

## *NOTES TO FINANCIAL STATEMENTS, Continued*

### September 30, 2022

financing sources and as capital outlay expenditures in the general fund. Lease payments representing both principal and interest are recorded as expenditures in the general fund upon payment with an appropriate reduction of principal recorded in the government-wide financial statements.

#### **11. Leases**

**Lessee:** The City is a lessee for noncancellable leases of equipment. The City recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the full-accrual financial statements. The City recognizes lease liabilities with an initial, individual value of \$5,000 or more.

At the commencement of a lease, the City initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The leased asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the City determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The City uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the City uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the City is reasonably certain to exercise.

The City monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

**Lessor:** The City is a lessor for a noncancellable lease of cell towers and a road tolling system. The City recognizes a lease receivable and a deferred inflow of resources in the government-wide and governmental fund financial statements.

At the commencement of a lease, the City initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the

# **City of Taylor, Texas**

## **NOTES TO FINANCIAL STATEMENTS, *Continued***

### **September 30, 2022**

lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments include how the City determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The City uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The City monitors changes in circumstances that would require a remeasurement of its leases, and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

## **12. Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## **13. Other Postemployment Benefits ("OPEB")**

The City has implemented GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. This statement applies to the individual employers (TMRS cities) in the TMRS Supplemental Death Benefits (SDB) plan, with retiree coverage. The TMRS SDBF covers both active and retiree benefits with no segregation of assets, and therefore doesn't meet the definition of a trust under GASB No. 75 (i.e., no assets are accumulated for OPEB) and as such the SDBF is considered to be an unfunded OPEB plan. For purposes of reporting under GASB 75, the retiree portion of the SDBF is not considered a cost sharing plan and is instead considered a single employer, defined benefit OPEB plan. The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary, calculated based on the employee's actual earnings on which TMRS deposits are made, for the 12-month period preceding the month of death. The death benefit amount for retirees is \$7,500. GASB No. 75 requires the

# **City of Taylor, Texas**

## **NOTES TO FINANCIAL STATEMENTS, *Continued***

### **September 30, 2022**

liability of employers and nonemployer contributing entities to employees for defined benefit OPEB (net OPEB liability) to be measured as the portion of the present value of projected benefit payments to be provided to current active and inactive employees that is attributed to those employees' past periods of service (total OPEB liability), less the amount of the OPEB plan's fiduciary net position.

In addition to the contributions made to TMRS, the City provides certain other post-employment benefits to its retirees and dependents. Full time City of Taylor employees who retire from the City under the Texas Municipal Retirement System on or after January 1, 2000, and who are covered by the City of Taylor group hospitalization and medical insurance at the time of retirement, will be eligible to receive the current health plan which is an 80/20 HMO insurance plan that includes a \$500 deductible for individual and a \$1,000 deductible for family medical insurance provided by the City to its employees, from the date of retirement until the 5th anniversary date after retirement.

#### **14. Estimates**

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

#### **F. Revenues and Expenditures/Expenses**

##### **1. Program Revenues**

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

##### **2. Property Taxes**

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. Under state law, property taxes levied on real property constitute a lien on the real property which cannot be forgiven without specific approval of the State Legislature. The lien expires at the end of twenty years. Taxes levied on personal property can be deemed uncollectible by the City.

# **City of Taylor, Texas**

## **NOTES TO FINANCIAL STATEMENTS, *Continued***

**September 30, 2022**

Property taxes at the fund level are recorded as receivables and deferred revenues at the time the taxes are assessed. Revenues are recognized as the related ad valorem taxes are collected. Additional amounts estimated to be collectible in time to be a resource for payment of obligations incurred during the fiscal year and therefore susceptible to accrual in accordance with Generally Accepted Accounting Principles have been recognized as revenue.

Legislation was passed in 1979 and amended in 1981 by the Texas Legislature which affects the method of property assessment and tax collection in the City. This legislation, with certain exceptions, exempts intangible personal property and household goods. In addition, this legislature creates a "Property Tax Code" and provides, among other things, for the establishment of county-wide appraisal districts and for a State Property Tax Board which commenced operation in January 1980. The appraisal of property within the City is the responsibility of the Williamson County Tax Appraisal District. The Appraisal District is required under the Property Tax Code to assess all property within the appraisal district on the basis of 100 percent of its appraised value and is prohibited from applying any assessment ratios. The value of real property within the Appraisal District must be reviewed at least every four years. The City, at its own expense, may challenge appraised values established by the Appraisal District through various appeals and, if necessary, legal action. Under this legislation, the City continues to set tax rates on property within the City limits. However, if the effective tax rate, excluding tax rates for bonds and other contractual obligations, adjusted for new improvements and revaluation, exceeds the rate of the previous year by more than eight percent, qualified voters of the City may petition for an election to determine whether to limit the tax rate to no more than eight percent above the rate of the previous year.

### **3. Compensated Absences**

City employees earn vacation and sick leave, which may either be taken or accumulated, up to certain amounts, until retirement or termination. In the event of termination, resignation or retirement, all full-time employees, other than policeman and firemen, will be reimbursed for accrued vacation time up to 120 hours. Policeman and firemen, upon termination, resignation or retirement, will be reimbursed for accrued sick and vacation time according to civil service regulations. For all other employees, sick leave is not paid at termination or retirement.

All vacation and qualifying sick leave is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they are expected to be liquidated with expendable available financial resources, for example, as a result of employee resignations and retirements. Vested or accumulated vacation leave and compensated leave of government-wide and proprietary funds are recognized as an expense and liability of those funds as the benefits accrue to employees.

# **City of Taylor, Texas**

## **NOTES TO FINANCIAL STATEMENTS, *Continued***

**September 30, 2022**

It is the City's policy to liquidate compensated absences with future revenues rather than with currently available expendable resources. Accordingly, the City's governmental funds recognize accrued compensated absences when it is paid.

### **4. Proprietary Funds Operating and Nonoperating Revenues and Expenses**

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the public utility fund, airport fund, cemetery operating, and sanitation funds are charges to customers for sales and services. The public utility fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

## **II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

### **A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position.**

The governmental fund balance sheet includes reconciliation between *fund balance-total governmental funds* and *net position-governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that long-term liabilities, including bonds, are not due and payable in the current period and, therefore, are not reported in the funds.

### **B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities.**

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net position of governmental states that, "the issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities."

# **City of Taylor, Texas**

## **NOTES TO FINANCIAL STATEMENTS, *Continued***

### **September 30, 2022**

### **III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

Annual budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP) for the general, I&S for CO bonds, hotel/motel tax, main street revenue, municipal court security and technology, tax increment fund, drainage, transportation user fee, and enterprise funds. Capital project funds have no binding annual budget. Project-length financial plans are adopted for all capital projects; accordingly, no comparison of budget to actual is presented in the financial statements. The original budget is adopted by the City Council prior to the beginning of the year. The legal level of control as defined by the City Charter is the fund level. No funds can be transferred or added which affect the total fund expenditures without City Council approval. Appropriations lapse at the end of the year. Several supplemental budget appropriations were made during the year.

#### **A. Expenditures Over Appropriations**

For the year ended September 30, 2022, expenditures exceeded appropriations at the legal level of control as follows:

Hotel/Motel Tax	\$56,453
Main Street Revenue	\$19,621
Drainage	\$952

#### **B. Deficit Fund Balance**

At September 30, 2022, the equipment services and equipment replacement funds have a deficit net position of \$88,501 and \$55,511, respectively. The deficits will be eliminated in the future through reimbursements from other funds.

#### **C. Restricted/Committed Fund Equity**

The City records fund balance restrictions on the fund level to indicate that a portion of the fund balance is legally restricted for a specific future use or to indicate that a portion of the fund balance is not available for expenditures.

**City of Taylor, Texas**  
**NOTES TO FINANCIAL STATEMENTS, Continued**  
**September 30, 2022**

The following is a list of fund balances restricted/committed by the City:

	<u>Restricted</u>	<u>Committed</u>
Debt service	\$ 1,132,769	\$ -
Capital projects	20,691,187	-
Cemetery land purchase	131,774	-
Municipal court	* 98,965	-
Moody museum	223,546	-
Library bequest funds	317,623	-

#### IV. DETAILED NOTES ON ALL FUNDS

##### A. Deposits and Investments

As of September 30, 2022, the primary government had the following investments:

Investment Type	Value	Weighted Average Maturity (Years)	Credit Rating
Municipal bonds	\$ 11,374,694	0.88	AAA
External investment pools	38,766,158	0.06	AAAm
Total fair value	<b>\$ 50,140,852</b>		
Portfolio weighted average maturity		0.95	

**City of Taylor, Texas**  
**NOTES TO FINANCIAL STATEMENTS, Continued**  
**September 30, 2022**

As of September 30, 2022, the component units had the following investments:

<b>Investment Type</b>	<b>Value</b>	<b>Weighted Average Maturity (Years)</b>	<b>Credit Rating</b>
External investment pools	\$ 238,578	0.07	AAAm
Total fair value	<u><u>\$ 238,578</u></u>		
Portfolio weighted average maturity		0.07	

*Interest rate risk* In accordance with its investment policy, the City manages its exposure to declines in fair values by limiting the weighted average of maturity not to exceed five years; structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations; monitoring credit ratings of portfolio position to assure compliance with rating requirements imposed by the Public Funds Investment Act; and invest operating funds primarily in short-term securities or similar government investment pools.

*Credit risk:* The City's investment policy limits investments to obligations of the United States, State of Texas, or their agencies and instrumentalities with an investment quality rating of not less than "A" or its equivalent, by a nationally recognized investment rating firm. Other obligations must be unconditionally guaranteed (either express or implied) by the full faith and credit of the United States Government or the issuing U.S. agency and investment pools with an investment quality not less than AAA or AAA-m, or equivalent, by at least one nationally recognized rating service. As of September 30, 2022, the City's investment in investment pools were rated AAAm by Standard & Poor's.

*Custodial credit risk – deposits:* In the case of deposits, this is the risk that in the event of a bank failure, the City's deposits may not be returned to it. State statutes require that all deposits in financial institutions be insured or fully collateralized by U.S. government obligations or its agencies and instrumentalities or direct obligations of Texas or its agencies and instrumentalities that have a market value of not less than the principal amount of the deposits. As of September 30, 2022, the market values of pledged securities and FDIC exceeded bank balances.

*Custodial credit risk – investments:* For an investment, this is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City's investment policy requires that it will seek to safekeeping securities at financial institutions, avoiding physical possession. Further, all trades, where applicable, are executed by delivery versus payment to ensure that securities are deposited in the City's safekeeping account prior to the release of funds.

### September 30, 2022

#### **TexPool**

TexPool was established as a trust company with the Treasurer of the State of Texas as trustee, segregated from all other trustees, investments, and activities of the trust company. The State Comptroller of Public Accounts exercises oversight responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. The advisory board members review the investment policy and management fee structure. Finally, Standard & Poor's rate TexPool AAA. As a requirement to maintain the rating, weekly portfolio information must be submitted to Standard & Poor's, as well as to the office of the Comptroller of Public Accounts for review. At September 30, 2022, the fair value of the portion in TexPool approximates fair value of the shares. There were no limitations or restrictions on withdrawals.

#### **TexSTAR**

TexSTAR has been established for governmental entities pursuant to the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code and operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. TexSTAR's governing body is a five-member Board consisting of three representatives of participants and one member designated by each of the co-administrators. The Board holds legal title to all money, investments, and assets and has the authority to employ personnel, contract for services, and engage in other administrative activities necessary or convenient to accomplish the objectives of TexSTAR. Board oversight of TexSTAR is maintained through daily, weekly, and monthly reporting requirements. TexSTAR is rated AAA by Standard & Poor's. The City's fair value position is stated at the value of the position upon withdrawal. There were no limitations or restrictions on withdrawals.

#### **Texas CLASS**

MBIA is a participant of the Texas CLASS program. Texas CLASS has been established for governmental entities pursuant to the Public Funds Investment Act, Chapter 2256 of the Texas Government Code and operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. Texas CLASS is supervised by a Board of Trustees who are elected by the Participants. The Board of Trustees supervises the Trust and its affairs and acts as the liaison between the Participants, the Custodian and the Program Administrator. The Board administers the affairs of the Trust and enters into contracts and agreements on behalf of the Trust in order to effectuate the terms of the Trust Agreement. It also selects consultants for Texas CLASS, including the Program Administrator and the Custodian. MBIA's Texas CLASS is rated AAA by Fitch. There were no limitations or restrictions on withdrawals.

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2022

#### B. Fair Value Measurement

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are remeasured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The City's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

The City's financial instruments consist of cash and cash equivalents, investments in certificates of deposits maturing in greater than three months, and accounts receivable. The estimated fair value of cash, cash equivalents, investments, and accounts receivable approximate their carrying amounts due to the short-term nature of these instruments.

The following table sets forth by level, within the fair value hierarchy, the City's fair value measurements at September 30, 2022.

	<b>Fair Value</b>	<b>Level 1 Inputs</b>	<b>Level 2 Inputs</b>	<b>Level 3 Inputs</b>
Municipal Bonds	\$ 11,374,694	\$ 11,374,694	\$ -	\$ -
Total Assets at fair value	<u><u>\$ 11,374,694</u></u>	<u><u>\$ 11,374,694</u></u>	<u><u>\$ -</u></u>	<u><u>\$ -</u></u>

	<b><u>\$ 1,497,085</u></b>	<b><u>\$ 260,342</u></b>	<b><u>\$ 1,757,427</u></b>

The Taylor Economic Development Corporation receivables consisted sales tax totaling \$570,305.

**Lease Receivables**

The City is the lessor of three contracts in which the City receives lease payments from lessees. This includes two separate cell phone companies for the use of existing water tower antenna space and one tolling equipment company. The cell tower leases commenced in 2018 and 2021 and are renewable in 5-year increments. Annual lease payments of \$18,150 will be received from AT&T through September 2026. Monthly lease payments of \$2,133.75 will be received from Verizon through December 2023. Monthly lease payments of \$2,200 will be received from Telvent through June 2023, for the use and access of roadway to test a road tolling system. As of September 30, 2022, the lease receivable and offsetting deferred inflows amounted to \$97,051 and \$101,312, respectively, for the cell tower leases. The lease receivable and offsetting deferred inflows amounted to \$19,474 and \$22,274, respectively, for the tolling company roadway lease.

The annual principal and interest payments to be received are as follows:

<b>Year ending</b>	<b>Governmental Activities</b>	
	<b>Principal</b>	<b>Interest (4%)</b>
<b>September 30,</b>		
2023	\$ 19,474	\$ 326

<b>Long-term liabilities due in more than one year</b>					

**City of Taylor, Texas**  
**NOTES TO FINANCIAL STATEMENTS, Continued**  
**September 30, 2022**

Long-term debt applicable to the City's governmental activities are not due and payable in the current period and accordingly, are not reported as fund liabilities in the governmental funds. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. The City intends to retire all of its general long-term liabilities, plus accrued interest, from property taxes and other current revenues from the debt service fund as has been done in prior years. The proprietary fund type long-term debt will be repaid, plus accrued interest, from operating revenues of the respective fund. The general fund has typically been used to liquidate the liability for compensated absences for governmental activities. Leases are secured by the underlying asset. In the event of default, the lender may demand immediate payment or take possession of the asset. Assets under lease have a net book value of \$166,327 at year end. Assets financed through notes payable have a book value of \$971,467.

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Due in one Year</u>
<b>Component Unit - Taylor EDC</b>					
Building lease	\$ 8,974	\$ 85,552	\$ (26,193)	\$ 68,333	\$ 27,562
<b>Total Component Unit Activities</b>	<b><u>\$ 8,974</u></b>	<b><u>\$ 85,552</u></b>	<b><u>\$ (26,193)</u></b>	<b><u>\$ 68,333</u></b>	<b><u>\$ 27,562</u></b>
<b>Lease Liabilities Due in More than One Year</b>				<b><u>\$ 40,771</u></b>	

In February 2022, the Corporation signed a noncancelable lease for an office building. The lease term is for 3 years with monthly payments of \$2,380, \$2,500, & \$2,650, respectively, in twelve-month increments. There is no stated interest rate in the lease. The Corporation has utilized our incremental borrowing rate which was determined to be 5.5% on the date of the agreement. The final payment will be made on January 31, 2025. The present value of the remaining building lease payments as of September 30, 2021 was determined to be \$8,974. The Corporation restated lease payable and RTU assets for this amount. The Taylor EDC has an unused line of credit totaling \$3,500,000.

**City of Taylor, Texas**  
**NOTES TO FINANCIAL STATEMENTS, Continued**

#### G. Deferred Charges on Refunding

Deferred charges (gains) resulting from the issuance of series 2010, 2012, 2015, 2016, 2017, and 2021 general obligation refunding bonds have been recorded as deferred outflows of resources and are being amortized to interest expense over the shorter of either the remaining term of the refunded debt or the refunding bonds. Current year balances for governmental and business-type activities totaled \$111,408 and \$410,127, respectively. Current year amortization expense for governmental and business-type activities totaled \$29,271 and \$47,637, respectively.

**City of Taylor, Texas**

**September 30, 2022**

**H. Interfund Transactions**

Transfers between the primary government funds during the 2022 year were as follows:

Transfer out:	Transfer In:						Total
	General	Capital Improvements	I&S for CO Bonds	Nonmajor Governmental	Cemetery Operating	Equipment Replacement	
General	\$ -	\$ -	\$ -	\$ 14,600	\$ -	\$ -	\$ 14,600
I&S for CO Bonds	-	-	-	-	-	\$ 240,750	\$ 240,750
Transportation	-	111,131	-	-	-	-	111,131
Nonmajor Governmental	180,000	-	275,450	5,000	4,979	11,914	477,343
Public Utilities	1,600,000	138,492	-	-	-	-	1,738,492
Airport	15,000	-	-	-	-	-	15,000
Sanitation	164,200	-	-	-	-	-	164,200
<b>Total</b>	<b>\$ 1,959,200</b>	<b>\$ 249,623</b>	<b>\$ 275,450</b>	<b>\$ 19,600</b>	<b>\$ 4,979</b>	<b>\$ 252,664</b>	<b>\$ 2,761,516</b>

Transfers between general, transportation and capital improvements were primarily to support capital projects. Transfers between the enterprise funds to the general fund were for franchise fees and contributions for operations. Transfers between to I&S CO Bonds were for debt service payments. Transfers to the equipment replacement fund were for equipment purchases.

During the year, the Tax Increment Financing discretely present component unit contributed \$23,532, \$342,150 and \$20,000 to the General, I&S for CO Bonds and Main Street Revenue funds, respectively, for debt service and capital funding.

The compositions of interfund balances as of the year ended September 30, 2022 were as follows:

Payable Fund:	Receivable Fund:		
	I&S For CO		
	General	Bonds	Total
General	\$ -	\$ 208,791	\$ 208,791
Capital projects	5,325	1,793	7,118
Nonmajor governmental	162,532	-	162,532
<b>Total</b>	<b>\$ 167,857</b>	<b>\$ 210,584</b>	<b>\$ 378,441</b>

Interfund receivables and payables relate to various amounts used to cover operational and capital expenditures. All balances are expected to be resolved in the subsequent year.

### September 30, 2022

#### **V. OTHER INFORMATION**

##### **A. Risk Management**

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets, errors and omissions; and natural disasters for which the City participates along with over 2,800 other entities in the Texas Municipal League's Intergovernmental Risk Pools. The Pool purchases commercial insurance at group rates for participants in the Pool. The City has no additional risk or responsibility to the Pool outside of the payment of insurance premiums. The City has not significantly reduced insurance coverage or had settlements which exceeded coverage amounts for the past three years.

##### **B. Commitments and Contingent Liabilities**

Amounts received or receivable from granting agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends, including frequency and amount of payouts, and other economic and social factors.

##### Development Review Reimbursement Agreement ("DRRA")

The City entered into a Development Review Costs and Services contract in order to expedite the development review and approval of the construction and development of a semiconductor production fabrication plant on land that will be utilized for a manufacturing facility. This agreement includes funding for City development review costs and services as well as costs of 3<sup>rd</sup> party contractors. The City is to repay all amounts funded for direct City costs associated with the project, as defined in the agreement. The City is not required to repay amounts provided and expended for 3<sup>rd</sup> party review charges and costs. The Company provided a total of \$1,402,313 during the year which was placed in escrow and utilized as necessary to complete the City's development review. Subsequent replenishments will be made upon request, if necessary. This balance and subsequent advances will be paid back in annual payments starting in 2027. The amount reported as payable under this agreement totaled \$1,402,313 as of September 30, 2022. During the year, the Company has also funded City \$1,000,000 for 3<sup>rd</sup> party review costs.

# City of Taylor, Texas

## *NOTES TO FINANCIAL STATEMENTS, Continued*

### September 30, 2022

#### Project Funding Agreement

The City entered into a project funding agreement with a manufacturing company that requires the construction of water and wastewater facilities to land that will be utilized for construction of a manufacturing facility. In order to expedite the construction of these facilities, the Company will contribute toward the cost of the various phases of the project. During the current fiscal year, the company provided \$20,754,595 in funding to be placed in escrow and utilized for the construction of water and wastewater facilities. The balance of unspent contributions remaining at year end totaled \$12,233,931.

#### **C. Construction Commitments**

The City of Taylor has active construction projects as of September 30, 2022. The projects include improvements for parks, the animal shelter facility, the intersection at 2nd and Main streets, downtown roads, and water and wastewater infrastructure.

At year end, the City of Taylor's commitments with contractors are as follows:

<b>Project</b>	<b>Authorized Contract Award</b>	<b>Remaining Commitment</b>
TRP & Doak Park	\$ 1,575,550	\$ 264,216
Animal Shelter Construction	1,423,262	1,423,262
2nd & Main Intersection	226,034	226,034
Downtown Striping Project	146,006	146,006
Downtown Signage Project	150,967	150,967
Downtown Streetscape	88,941	88,941
Mustang Creek WWTP Improvements Train 2 Rehab	5,339,000	3,921,666
FM 973 Water and Wastewater Line Improvements	8,307,365	2,723,660
Northside Pump Station Improvements	2,124,640	2,054,587
North Pump Station Generator	290,469	261,422
<b>Total</b>	<b><u>\$ 19,672,233</u></b>	<b><u>\$ 11,260,760</u></b>

#### **D. Defined Benefit Pension Plans**

##### **1. Plan Description**

The City of Taylor, Texas participates as one of 901 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice

# City of Taylor, Texas

## *NOTES TO FINANCIAL STATEMENTS, Continued*

### September 30, 2022

and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issues a publicly available annual comprehensive financial report (ACFR) that can be obtained at [www.tmrs.com](http://www.tmrs.com).

All eligible employees of the city are required to participate in TMRS.

#### **2. Benefits Provided**

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the city, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the city-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows:

	<u>Plan Year 2021</u>	<u>Plan Year 2020</u>
Employee deposit rate	7%	7%
Matching ratio (city to employee)	2 to 1	2 to 1
Years required for vesting	5	5
Service retirement eligibility (expressed as age / years of service)	60/5, 0/20	60/5, 0/20
Updated service credit	100% Repeating Transfers	100% Repeating Transfers
Annuity increase (to retirees)	30% of CPI	30% of CPI
Active Employees	Yes	Yes
Supplemental Death Benefit to Retirees	Yes	Yes

#### **Employees covered by benefit terms**

At the December 31, 2021 valuation and measurement date, the following employees were covered by the benefit terms:

# City of Taylor, Texas

## *NOTES TO FINANCIAL STATEMENTS, Continued*

### September 30, 2022

Inactive employees or beneficiaries currently receiving benefits	117
Inactive employees entitled to but not yet receiving benefits	133
Active employees	<u>156</u>
<b>Total</b>	<b><u>406</u></b>

### **3. Contributions**

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the City matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City of Taylor, Texas were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the City of Taylor, Texas were 12.69% and 13.18% in calendar years 2022 and 2021, respectively. The City's contributions to TMRS for the year ended September 30, 2022, were \$1,345,915, and were equal to the required contributions.

### **4. Net Pension Liability**

The City's Net Pension Liability (NPL) was measured as of December 31, 2021, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

#### **Actuarial assumptions**

The Total Pension Liability in the December 31, 2021 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.50% per year
Overall payroll growth	2.75% per year, adjusted down for population declines
Investment Rate of Return	6.75% net of pension plan investment expense, including inflation

Salary increases are based on a service-related table. Mortality rates for active members are based on the PUB(10) mortality tables with the Public Safety table used for males and the General Employee table used for females. Mortality rates for healthy retirees and beneficiaries are based on the Gender-distinct 2019 Municipal Retirees of Texas mortality tables. The rates for actives, healthy retirees and beneficiaries are projected on a fully generational basis by Scale UMP to account for future mortality improvements. For disabled

# City of Taylor, Texas

## *NOTES TO FINANCIAL STATEMENTS, Continued*

### September 30, 2022

annuitants, the same mortality tables for healthy retirees is used with a 4-year set-forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3.0% minimum mortality rate is applied, for males and females respectively, to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

The actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four-year period from December 31, 2014 to December 31, 2018. They were adopted in 2019 and first used in the December 31, 2109 actuarial valuation. The post-retirement mortality assumption for Annuity Purchase Rates (APRs) is based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, GRS focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive). The target allocation and best estimates of real rates of return for each major asset class in fiscal year 2022 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (Arithmetic)
Global Public Equity	35.0%	7.55%
Core Fixed Income	6.0%	2.00%
Non-Core Fixed Income	20.0%	5.68%
Other Public/Private Markets	12.0%	7.22%
Real Estate	12.0%	6.85%
Hedge Funds	5.0%	5.35%
Private Equity	10.0%	10.00%
Total	100.0%	

#### **Discount Rate**

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the

**City of Taylor, Texas**  
**NOTES TO FINANCIAL STATEMENTS, Continued**  
**September 30, 2022**

pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

**Pension Plan Fiduciary Net Position**

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TMRS financial report. That report may be obtained on the internet at [www.tmrs.com](http://www.tmrs.com).

**Changes in the Net Pension Liability**

	<b>Total Pension Liability (a)</b>	<b>Plan Fiduciary Net Position (b)</b>	<b>Net Pension Liability (a) - (b)</b>
<b>Balance at 12/31/20</b>	<b>\$ 35,655,545</b>	<b>\$ 31,672,315</b>	<b>\$ 3,983,230</b>

**5. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

For the year ended September 30, 2022, the City recognized pension expense of \$551,939. At September 30, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Difference between projected and investment earnings	\$ -	\$ (2,118,655)
Changes in actuarial assumptions	40,475	-
Differences between expected and actual economic experience	33,392	-
Contributions subsequent to the measurement date	982,195	-
<b>Total</b>	<b>\$ 1,056,062</b>	<b>\$ (2,118,655)</b>

The City reported \$982,195 as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability for the year ending September 30, 2022. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<b>Year ended December 31:</b>	
2022	\$ (342,581)
2023	(885,360)
2024	(418,380)
2025	(398,467)
2026	-
Thereafter	-
	<b><u>\$ (2,044,788)</u></b>

**E. Other Post-Employment Benefits**

**Supplemental Death Benefits Fund**

The City also participates in a defined benefit group-term life insurance plan operated by the Texas Municipal Retirement System (TMRS) known as the Supplemental Death Benefits Fund (SDBF). This is a voluntary program in which participating member cities may elect, by ordinance, to provide group-term life insurance coverage for their active members, including or not including retirees. The City elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The City may terminate coverage

# City of Taylor, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2022

under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an "other postemployment benefit," or OPEB. The SDBF covers both active and retiree benefits with no segregation of assets and, therefore, doesn't meet the definition of a trust under GASB No. 75, paragraph 4b, (i.e., no assets are accumulated for OPEB). As such, the SDBF is considered to be a single-employer unfunded OPEB plan (and not a cost sharing plan) with benefit payments treated as being equal to the employer's yearly contributions for retirees.

The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employees' entire careers.

#### **Employees covered by benefit terms**

At the December 31, 2021 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	77
Inactive employees entitled to but not yet receiving benefits	29
Active employees	156
<b>Total</b>	<b>262</b>

The City's contributions to the TMRS SDBF for the years ended 2022, 2021 and 2020 were \$15,029, \$14,040, and \$6,251, respectively, which equaled the required contributions each year.

#### Schedule of Contribution Rates (*RETIREE-only portion of the rate*)

Plan/ Calendar Year	Annual Required Contribution (Rate)	Actual Contribution Made (Rate)	Percentage of ARC Contributed
2021	0.07%	0.07%	100.0%
2022	0.18%	0.18%	100.0%
2023	0.13%	0.13%	100.0%

# City of Taylor, Texas

## *NOTES TO FINANCIAL STATEMENTS, Continued*

### September 30, 2022

#### **Total OPEB Liability**

The City's Postemployment Benefits Other Than Pensions Liability (OPEB) was measured as of December 31, 2021, and the Total OPEB Liability was determined by an actuarial valuation as of that date.

#### **Actuarial assumptions:**

The Total OPEB Liability in the December 31, 2021 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5% per year
Overall payroll growth	3.5% to 11.5%, including inflation per year
Discount rate	1.84%
Retirees' share of benefit-related costs	\$0
Administrative expenses	All administrative expenses are paid through the Pension Trust and accounted for under reporting requirements under GASB Statement No. 68

Salary increases were based on a service-related table. For service retirees and beneficiary mortality rates, the OPEB liability and the OPEB contribution rates utilized the Gender-distinct 2019 Municipal Retirees of Texas mortality tables. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements. Based on the size of the city, rates are multiplied by an additional factor of 100.0%. For disabled annuitants mortality rates, the OPEB liability and the OPEB contribution rates utilized the mortality tables for healthy retirees is used with a 4 year set-forward for males and a 3 year set-forward for females. In addition, a 3.5% and 3% minimum mortality rate will be applied to reflect the impairment for younger members who become disabled for males and females, respectively. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

#### **Discount Rate:**

The discount rate used to measure the Total OPEB Liability was 1.84%. The discount rate was based on the Fidelity Index's "20-Year Municipal GO AA Index" rate as of December 31, 2021.

#### **Sensitivity of the Net OPEB Liability (Asset) to Changes in the Discount Rate**

The following presents the net OPEB liability of the City, calculated using the discount rate of 1.84%, as well as what the City's net pension liability (asset) would be if it were calculated

	\$	70,535

#### **Health Care Benefit Provided by Plan**

In addition to the contributions made to TMRS, the City provides certain other post-employment benefits to its retirees and dependents. This plan is considered a single-employer defined benefit plan. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75 and the fund is considered to be unfunded. Full time City of Taylor employees who retire from the City under the Texas Municipal Retirement System on or after January 1, 2000, and who are covered by the City of Taylor group hospitalization and medical insurance at the time of retirement, will be eligible to receive current health plan which is an 80/20 HMO insurance plan that includes a \$500 deductible for individual and a \$1,000 deductible for family medical insurance provided by the City to its employees, from the date of retirement until the 5th anniversary date after retirement. The City will pay the full premiums for the HMO insurance coverage for any retiree who retired between January 1, 2000 and August 11, 2005 until the 5th anniversary date after retirement unless anyone of the three events listed below, also pertaining to retirements after August 11, 2005, occurs. Employees retiring after August 11, 2005, shall not receive full premium payment from the City. The City will pay only the premium amount paid by the City for its active employees provided the retiree pays the difference, if any, between the amount paid by the City for active employees and the full premium required for the retiree HMO insurance coverage.

Payments by the City will continue until the 5th anniversary date after retirement unless any one of the following three events occurs:

1. The retiree attains the age of 65 years, or;
2. The retiree becomes eligible for hospitalization and medical insurance coverage by virtue of other employment; or

# **City of Taylor, Texas**

## ***NOTES TO FINANCIAL STATEMENTS, Continued***

**September 30, 2022**

3. The retiree becomes eligible for disability retirement provided by the Federal Government that is paid for less than a 100% disability of the retiree.

### **Deferred Retirement Benefits**

Employees who terminate their employment but do not formally retire under the Texas Municipal Retirement System are not eligible for retiree health care benefits. An employee must be covered by the City of Taylor's health insurance plan at the time of retirement.

### **Duty Death in Service Retirement Benefits**

With the passage of SM 872, the City of Taylor will be required to do the following:

1. To provide health benefit coverage to the surviving spouse of a peace officer or firefighter killed in the line of duty at the same rate paid by current employees;
2. Allows an eligible survivor up to 180 days to apply for health coverage;
3. To provide an eligible surviving spouse coverage until the surviving spouse becomes eligible for federal Medicare benefits;
4. To provide an eligible minor coverage until the minor turns 18.

### **Non-duty in Service Retirement Benefits**

Survivors of employees who die while actively employed are not eligible for retiree health care benefits.

### **Duty and Non-duty Disabled Retirement Benefits**

Employees who retire under a disability retirement are eligible for retiree health care benefits as long as they are covered on the health insurance plan at the time of retirement and meet the criteria as listed under the normal retirement benefits.

### **Benefits for Spouses of Retired Employees**

Retiree may purchase retiree health care coverage for eligible spouses and dependents at their own expense. Surviving spouses and dependents of deceased retired member's insurance coverage will terminate the end of the month the retiree dies.

### **Non-Medicare and Medicare-Eligible Provisions**

City of Taylor coverage ceases when the retiree becomes eligible for Medicare coverage. Retirees are required to enroll in Medicare once they are eligible. Retiree pays full Medicare premiums.

**City of Taylor, Texas**  
**NOTES TO FINANCIAL STATEMENTS, Continued**  
**September 30, 2022**

Vision Coverage

Vision coverage is part of the health insurance plan at no extra cost.

Dental Coverage

City of Taylor does not offer dental coverage for retirees or their dependents. This is offered as Cobra insurance. If the retiree is interested then the retiree pays the premium.

Life Insurance Coverage

Life insurance coverage is part of the Pension plan at \$7,500 for retirees and one times the annual salary for active employees.

Retiree Opt-Out

Retirees who decide to opt-out of the retiree health care plan will not be eligible to opt back in when coverage from cobra or another entity ceases. There is no additional premium payment provided for those who opt out of the retiree health care plan.

Benefits Paid By the Plan

Retiree medical coverage is the same coverage provided to active City of Taylor employees in accordance with the term and conditions of the current City's health plan. Employees retiring after August 11, 2005 the City of Taylor will pay only the premium amount paid by the City for its active employees provided the retiree pays the difference.

Discount Rate

The discount rate used to measure the Total OPEB Liability was 2.25%. The discount rate was based on the Bond Buyer GO Bond 20 Year Index rate as of September 30, 2020, date of the actuarial valuation.

Sensitivity of the Net OPEB Liability (Asset) to Changes in the Discount Rate

The following presents the net OPEB liability of the City, calculated using the discount rate of 4.77%, as well as what the City's net OPEB liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (3.77%) or 1-percentage-point higher (5.77%) than the current rate:

1% Decrease (3.77%)	Current Single Rate Assumption 4.77%	1% Increase (5.77%)

Thereafter		<u>(48,719)</u>
	<u><u>\$</u></u>	<u><u>(98,482)</u></u>

Employees covered by benefit terms

At the September 30, 2022 valuation date, the following employees were covered by the benefit terms:

<u>Status</u>	<u>Employee</u>	<u>Employee &amp; Spouse</u>
Inactive employees or beneficiaries currently receiving benefits	3	2
Active employees	100	44
Total	103	46

Funding Status and Funding Progress

Actuarial valuations of an ongoing program involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the Program and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of Program, assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits. The current valuation dated September 30, 2022 and measured as of September 30, 2022 uses the mortality table: RPH 2014 Total Table with Projection MP-2021 and turnover: rates varying based on genera, age, and select and ultimate at 9 years. Rates based on the TMRS actuarial assumptions from the 2017 retirement plan valuation report.

Actuarial Methods and Assumptions

The discount rate for the current valuation was raised from 2.25% to 4.77%. There have been no other substantive changes in the retiree plan since the last full valuation.

# City of Taylor, Texas

## *NOTES TO FINANCIAL STATEMENTS, Continued*

### September 30, 2022

Projections of benefits for financial reporting purposes are based on the substantive program (the program as understood by the employer and the Program members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and Program members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The following is a summary of the actuarial assumptions:

Actuarial Cost Method	Entry Age Normal Cost
Amortization Method	Level Percent-of-Payroll
Asset Valuation Method	N/A
Discount Rate	4.77%
Inflation Rate	2.5%
Salary Growth	3.0%
Healthcare Cost Trend Rate (Initial/Ultimate)	4.5% for medical

The amount of OPEB expenses during the year were \$71,918 and \$78,866 for the SDB and Retiree Healthcare plans, respectively, totaling \$150,784.

#### **F. Deferred Compensation Plan**

The City has established a deferred compensation plan (the 457 plan) in accordance with Internal Revenue Code, Section 457. The 457 plan, available to all employees, permits them to defer a portion of their salaries until future years. The benefits of the plan are not available to employees until termination, retirement, or unforeseeable emergency. Benefits are available to employee's beneficiaries in case of death.

All amounts of compensation deferred under the 457 plan, all property rights purchased with those amounts, and all income attributable to those amounts, property, or rights are (until paid or made available to the employee or other beneficiary) solely the property and rights of the City (without being restricted to the provisions of benefits under the plan) subject only to the claims of the City's general creditors. Participants' rights under the plan are equal to those of the general creditors of the City in an amount equal to the fair market value of the deferred account for each participant.

It is the opinion of the City that the City has no liability for investment losses under the 457 plan, but does have the duty of due care that would be required of an ordinary prudent investor. The City believes that it is unlikely that it will use the 457 plan assets to satisfy the claims of general creditors in the future.

**City of Taylor, Texas**  
**NOTES TO FINANCIAL STATEMENTS, Continued**  
**September 30, 2022**

The City's deferred compensation plan is administered by a private corporation under contract with the City. Participant and City contributions totaled \$90,153 for the year ended September 30, 2022.

**G. Tax Abatement Disclosures**

The City of Taylor negotiates property tax abatement agreements on an individual basis. The City has tax abatement agreements with three entities as of September 30, 2022:

<u>Purpose</u>	<u>Percentage of Taxes Abated during the Fiscal Year</u>	<u>Amount of Taxes Abated during the Fiscal Year Property Tax</u>	<u>Amount of Taxes Abated during the Fiscal Year Sales Tax</u>
Construction of a 20,000 data information facility to create positive economic benefits through employment and tax revenue.	75%	\$ 74,222	\$ -
Construction of a 60,000 sf regional manufacturing and retail facility to create positive economic benefits through employment and tax revenue.	50%	-	50,647
Construction and operation of a window manufacturing business create positive economic benefits through employment and tax revenue.	50%	19,282	-
<b>Total</b>	<b>\$ 93,504</b>	<b>\$ 50,647</b>	

Each agreement was negotiated under Article III, Section 52-a, Texas Constitution, and Chapter 380, Texas Local Gov't Code, stating that the City may establish and provide for the administration of a program for making loans and grants of public money to promote state or local economic development and to stimulate business and commercial activity in the municipality. The agreement is in accordance with Section 501.103, Texas Local Gov't Code. Taxes were abated through a rebate of taxes received. Recipients of the sales tax abatements agree to operate within the City limits through the term of their agreement.

The City has not made any commitments as part of the agreements other than to reduce taxes. The City is not subject to any tax abatement agreements entered into by other governmental entities. The City has chosen to disclose information about its tax abatement agreements individually. It established a quantitative threshold of 100% percent of the total dollar amount of taxes abated during the year.

**City of Taylor, Texas**  
**NOTES TO FINANCIAL STATEMENTS, *Continued***  
**September 30, 2022**

**H. Subsequent Events**

On March 9, 2023, the City was awarded financial assistance from the Texas Water Development Board consisting of \$5,090,000 in financing at 0% interest for drainage improvements. The City anticipates issuing the long-term debt in August 2023.

There were no other material subsequent events through March 22, 2023, the date the financial statements were issued.

**I. New Accounting Pronouncements**

The City has adopted the provision of Governmental Accounting Standard Board (GASB) Statement No. 87, entitled *Leases*. Due to the implementation of GASB 87 in the current year, the City recorded right to use assets and lease liabilities.

## SCHEDULE OF EMPLOYER CONTRIBUTIONS TO PENSION PLAN

**Years Ended:**

	<u>9/30/2022</u>	<u>9/30/2021</u>	<u>9/30/2020</u>	<u>9/30/2019</u>
Actuarially determined employer contributions	\$ 1,345,915	\$ 1,215,943	\$ 1,113,923	\$ 1,015,485
Contributions in relation to the actuarially determined contribution	<u>\$ 1,345,915</u>	<u>\$ 1,215,943</u>	<u>\$ 1,113,923</u>	<u>\$ 1,015,485</u>
Contribution deficiency (excess)	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>
Annual covered payroll	<u>\$ 10,499,551</u>	<u>\$ 9,316,011</u>	<u>\$ 8,711,109</u>	<u>\$ 8,545,927</u>
Employer contributions as a percentage of covered payroll	12.82%	13.05%	12.79%	11.88%

1) This schedule is presented to illustrate the requirement to show information for ten years. However, until a full ten-year trend is compiled, only available information is shown.

## NOTES TO SCHEDULE OF EMPLOYER CONTRIBUTIONS TO PENSION PLAN

### **Valuation Date:**

Notes	Actuarially determined contribution rates are calculated as of December 31 and become effective in January 13 months later.
-------	---

### **Methods and Assumptions Used to Determine Contribution Rates:**

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	24 years (longest amortization ladder)
Asset Valuation Method	10 Year smoothed market; 12% soft corridor
Inflation	2.5%
Salary Increases	3.50% to 11.5% including inflation
Investment Rate of Return	6.75%
Retirement Age	Experience-based table of rates that are specific to the City's plan of benefits. Last updated for the 2019 valuation pursuant to an experience study of the period 2014 - 2018

Mortality	Post-retirement: 2019 Municipal Retirees of Texas Mortality Tables. The rates are projected on a fully generational basis with scale UMP. Pre-retirement: PUB(10) mortality tables, with the Public Safety table used for males and the General Employee table used for females. The rates are projected on a fully generational basis with scale UMP.
-----------	--

### **Other Information:**

Notes	There were no benefit changes during the year.

## STATISTICAL SECTION

This part of the City's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Contents	Page
Financial Trends	128
<i>These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.</i>	
Revenue Capacity	138
<i>These schedules contain information to help the reader assess the City's most significant local revenue source, property tax.</i>	
Debt Capacity	144
<i>These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.</i>	
Demographic and Economic Information	151
<i>These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.</i>	
Operating Information	154
<i>These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.</i>

Notes: The appraisal of property within the City is the responsibility of the Williamson County Appraisal District. The Appraisal District is required under the Texas Property Tax Code to appraise all property within the Appraisal District on the basis of 100% of its market value and is prohibited from applying any assessment ratios. In determining the market value of property, different methods of appraisal may be used, including the cost method of appraisal, the income method of appraisal, and the market data comparison basis of appraisal, and the method considered most appropriate by the chief appraiser is to be used. The value placed upon property within the Appraisal District is subject to review by a three member Appraisal Review Board.

<sup>1</sup>See the Schedule of Assessed and Estimated Actual Value of Taxable Property for property value data.

<sup>2</sup>Population data can be found in the Schedule of Demographic and Economic Statistics.

Note:

Details regarding the city's outstanding debt can be found in the notes to the financial statements.

# City of Taylor, Texas

## **DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT**

**As of September 30, 2021 (Unaudited)**

<b>Governmental Unit</b>	<b>Debt Outstanding</b>	<b>Estimated Percentage Applicable<sup>1</sup></b>	<b>Estimated Share of Overlapping Debt</b>
Debt repaid with property taxes:			
Williamson County	\$ 1,109,300,000	1.65%	\$ 18,303,450
Taylor ISD	\$ 55,704,916	81.95%	<hr/> 45,650,179
Subtotal, overlapping debt			63,953,629
City of Taylor	\$ 45,943,462	100%	<hr/> 45,943,462
Total direct and overlapping debt			<hr/> \$ 109,897,091

Notes: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the city. This schedule estimates the portion of the outstanding debt of those overlapping by the residents and businesses of Statistical. This process recognizes that, when considering the city's ability governments that is borne to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply the every taxpayer is a resident--and therefore responsible for repaying the debt--of each overlapping government.

<sup>1</sup> For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable assessed value that is within the city's boundaries and dividing it by each unit's total taxable assessed value.

## *LEGAL DEBT MARGIN INFORMATION*

### Last Ten Fiscal Years (Unaudited)

(amounts expressed in thousands)

	<b>2022</b>	<b>2021</b>	<b>2020</b>	<b>2019</b>
Debt limit	\$ 386,971	\$ 401,687	\$ 345,508	\$ 337,849
Total net debt applicable to limit	<u>78,738</u>	<u>53,947</u>	<u>58,162</u>	<u>62,523</u>
Legal debt margin	<u><u>\$ 308,233</u></u>	<u><u>\$ 347,739</u></u>	<u><u>\$ 287,345</u></u>	<u><u>\$ 275,326</u></u>

### **Legal Debt Margin Calculation for Fiscal Year 2022**

Assessed value	\$ 1,473,435
Add back: exempt real property	74,450
Total assessed value	<u>1,547,885</u>
Debt limit (10% of total assessed value)	386,971
Debt applicable to limit:	
Total Debt	Total Debt
Less: Amount set aside for repayment of	79,660
general obligation debt	<u>(922)</u>
Total net debt applicable to limit	<u>78,738</u>
Legal debt margin	<u><u>\$ 308,233</u></u>

Note: There is no direct debt limitation in the City Charter or under state law. The City operates under a Home Rule Charter (Article XI, Section 5, Texas Constitution), that limits the maximum tax rate, for all city purposes, to \$2.50 per \$100 assessed valuation. Administratively, the Attorney General of the State of Texas will permit allocation of \$1.50 of the \$2.50 maximum tax rate for general obligation debt service.
